L'arthroscopie (French Edition)

Christophe Hulet, Jean-François Potel

L'arthroscopie (French Edition) Christophe Hulet, Jean-François Potel

Les progrès en arthroscopie ont été fulgurants ces dernières années, en particulier en arthroscopie d'épaule, de hanche, du poignet et de cheville. Ainsi, de nombreuses pathologies ont été totalement revisitées par l'apport de cette technique. Aucune articulation et peu d'espaces de glissement résistent encore à l'arthroscope, ce qui permet de remplacer les gestes conventionnels par des chirurgies moins agressives. Les douleurs postopératoires sont réduites, facilitant une prise en charge en ambulatoire et le retour rapide à domicile. Cet ouvrage, constitué de 135 chapitres issus de la collaboration et de l'expérience de plus de 240 auteurs de la Société Française d'Arthroscopie, présente un recueil complet et illustré des pathologies à prise en charge arthroscopique avec, pour chacune, la description de la physiopathologie, du diagnostic, du traitement, des indications et des résultats. Tous les domaines d'application de l'arthroscopie sont abordés, en insistant sur les techniques de base, la réalisation des noeuds, l'utilisation des ancrs. Sont ensuite décrites les prises en charge des pathologies synoviales et cartilagineuses. Toutes les pathologies articulaires sont passées en revue, qu'elles concernent l'épaule, le coude, le poignet, la main, la hanche, le genou, la cheville ou le pied. Une incursion est par ailleurs faite autour du rachis. L'arthroscopie ayant toujours eu un rôle de pionnier, les domaines innovants et les techniques audacieuses mais déjà reconnues sont également traités. Ce livre, par son approche didactique et très illustrée (près de 1 700 figures, dont plus de 250 dessins originaux), constitue à la fois une référence unique pour les chirurgiens orthopédistes arthroscopistes confirmés désireux de retrouver ou d'approfondir toutes les techniques existantes et un guide indispensable pour les chirurgiens en formation.

From reader reviews:

Eula Hunter:

Reading a publication can be one of a lot of exercise that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people fantastic. First reading a book will give you a lot of new info. When you read a e-book you will get new information due to the fact book is one of several ways to share the information as well as their idea. Second, reading through a book will make a person more imaginative. When you studying a book especially fictional book the author will bring that you imagine the story how the personas do it anything. Third, you can share your knowledge to other folks. When you read this L'arthroscopie (French Edition), it is possible to tells your family, friends along with soon about yours reserve. Your knowledge can inspire the others, make them reading a reserve.

Delores Breedlove:

The publication untitled L'arthroscopie (French Edition) is the book that recommended to you to study. You can see the quality of the publication content that will be shown to a person. The language that author use to explained their ideas are easily to understand. The copy writer was did a lot of study when write the book, and so the information that they share to your account is absolutely accurate. You also could possibly get the e-book of L'arthroscopie (French Edition) from the publisher to make you far more enjoy free time.

Lila Smith:

This L'arthroscopie (French Edition) is great publication for you because the content that is certainly full of information for you who all always deal with world and still have to make decision every minute. That book reveal it details accurately using great plan word or we can declare no rambling sentences within it. So if you are read the item hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but hard core information with lovely delivering sentences. Having L'arthroscopie (French Edition) in your hand like getting the world in your arm, information in it is not ridiculous a single. We can say that no publication that offer you world with ten or fifteen small right but this reserve already do that. So , this can be good reading book. Hi Mr. and Mrs. occupied do you still doubt that?

Amy Joshi:

What is your hobby? Have you heard which question when you got college students? We believe that that problem was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person like reading or as examining become their hobby. You need to know that reading is very important and book as to be the point. Book is important thing to include you knowledge, except your personal teacher or lecturer. You find good news or update about something by book. Different categories of books that can you choose to use be your object. One of them are these claims L'arthroscopie (French Edition).
