Is your birthday between two different signs? Discover new insights into yourself and others with this first-ever guide to cusp astrology.

We've all heard the term "born on the cusp"—but what does it mean, exactly? What if you were born just as the sun moves into Aries, but you feel more like a Pisces? If your birthday falls on a date when a sign changes over to another, you probably possess traits of each. Engaging and easy to use, this book goes beyond simple, cut-and-dried archetypes of sun sign astrology, yet doesn't require any special knowledge. You'll get a deeper understanding of your personality and motivations—and those of your partner, friends, family members, and anyone else whose birthday is on the edge of two signs.

Organized by date of birth, this astrology book lets you quickly look up your birthday so you can identify your particular strengths, gifts, and challenges. You'll also find out about your career and upcoming opportunities, times of the year when you can expect obstacles and rewards, and which signs are your best matches for love and romance. Helping to illuminate each cusp birthday's characteristics are examples of well-known figures such as Robert Redford and Meryl Streep.
