Female Homosexuality: Choice Without Volition (Psychoanalytic Inquiry Book Series) Elaine V. Siegel
Describing in detail her analytic treatment of eight female homosexuals with common symptoms of incomplete body image and unconscious denial of differences between the sexes, Siegel details the recurring treatment phases that typified their analyses and offers formulations based on both ego-developmental and object-relational perspectives. She candidly describes the countertransferential issues that entered into the treatment of these women and examines basic societal assumptions about sexuality that are imprinted on the analyst.
