Music Projects (Maplin) R A Penfold

Music Projects contains a collection of projects based on music applications. Components are widely available and the circuits form the basis for further experiments. Circuit diagrams are provided, as are photographs of the main circuits. Parts lists are also given.

Robert Penfold's reputation for innovative circuit designs and well-thought out projects is firmly established. His work has been featured regularly in the popular 'Bob's Mini Circuits' section of Electronics, the Maplin magazine. This is a collection of his best ideas from the magazine. Projects include an accented metronome, a tremolo unit, a guitar compressor, a bass fuzz, and a chorus unit.
