First published in 1967, *While Six Million Died* revealed the untold story behind the deliberate obstruction placed in the way of attempts to save the Jewish people from Hitler's "final solution," with detailed documentation from worldwide interviews with participants, research in archives around the world, as well as classified and official papers that had never been published before Morse's exhaustive study. While the tragedy of the Holocaust continues to be told by historians, novelists, filmmakers, and others, no single volume has documented this dark period in its historical relationship to America as thoroughly and passionately as Arthur Morse's pioneering work.
