Violence is a steadily increasing feature of modern society caused by devices such as motor vehicles, motor aircraft, and aircraft, which are fabricated by man, or caused by man himself. There are few practitioners of medicine who will not encounter wounding in the course of a lifetime of practice. Most wounds will require his skills in treatment; others that the wound had been inflicted homicidally. The demand for interpretation because the appearance of the events that follow such interpretations are clearly very different so far as the police are concerned. For this, arranged in a systematic way, a detailed knowledge of wounds and in which they have been caused. For example, the grouping and position of wounds can suggest whether the injuries were inflicted accidentally, suicidally or in has been advancing very slowly over the years.
