This comprehensive Understanding treatise can be used as the course text or as a supplement to any insurance law casebook. **Insurance Law** is designed to make the substance of insurance law accessible to the student and to the general practitioner unfamiliar with the subject.

The premise of this book's organization is that insurance law is best understood if its legal principles are arranged according to the various stages in the life of a contract. Part A considers the question "what is insurance law". Part B considers issues germane to the establishment of the contractual relationship between insurer and insured. Part C considers issues relevant to the performance of contractual obligations. Finally, Part D examines a few topics that defy easy categorization, including special problems in group insurance, special issues in automobile insurance, issues in reinsurance, and a new chapter on excess and umbrella coverage.
